

# TIPS, TRICKS, AND RULES FOR OUR TRAILER GUESTS

- **No shoes** are allowed in trailer. Please bring pair of sandals or flip flops to use when coming in and out frequently.
- Our **hot water** is REALLY hot. Use caution.
- Remember that the **restroom has no lock on it**. Please be respectful and knock before barging in.
- When going #2 in toilet, **consider filling bowl partially with water** first (by pressing half-way down on the foot pedal).
- **Do not put food waste or grease** down the sink drain.
- **Nothing is allowed in toilet** except the provided toilet paper, water, and human waste. Do NOT put wet wipes or feminine products in the toilet. Those items can be put in the garbage can in the bathroom.
- **Have a trailer key with you** when leaving the trailer, especially at night. Sometimes the lock latch is engaged and you don't want to get locked out.
- **Do not leave the awning out** when away from the trailer. A strong wind gusts will tear it right off.
- **Do not allow small children** to play with the trailer control buttons, slide outs, etc.
- **Close roof vents** if the air condition is on or if it is raining.
- When camping without hookups...
  - please **use water sparingly** and conserve! The fresh water tank only holds 52 gallons. Bottled drinking water is provided. Consider using paper/plastic products instead of washing dishes. Shower quickly and only use the water you need. Don't leave faucets or fixtures running unnecessarily.
  - please **use electricity sparingly**. Use what you need, but only what you need. Don't leave unnecessary lights on.
