

Dometic Comfort Control Center 2 (CCC2)

E1 Error Recovery

When “E1” appears on a CCC2 display (as shown below) for one or more Zones, follow these steps to correct this error:

1. First, reset the CCC2 using the Dometic “System Reset Procedure” (see NOTE below):

- Press **OFF** .
- Press **ZONE** and **MODE** at the same time. The CCC2 screen will display the “IniT” screen which will list all the available Zones:

- Release **ZONE** and **MODE**.
- Press **OFF** .

2. If all the available Zones do *NOT* appear on the “IniT” screen, do the following:

- Disconnect all 120VAC and 12V power for 20 minutes.
- Repeat the “System Reset Procedure”.

NOTE: “System Reset Procedure” from **Dometic Comfort Control Center 2 Thermostat Operating Instructions** (Form #3312366.010, Revision 7/10).
